Wallaby Class Term 2 Newsletter

We have kept a weekly diary of what we have been up to and hope that you enjoying reading about our term 2 learning journey.

Wallabies weekly routine remains unchanged this term. As a part of whole school project, we are participating in the Accelerated Literacy Program. The book we have chosen for our class this term is "Alexander`s Outing" by Pamela Allen. Students enjoy listening to the story and participating in creating classroom display.

We have started this term with the celebration of Anzac Day, by creating a poster for school corridor display. With the assistance from Jen and Marlene, students cut required shapes and arranged them on the cardboard to form a row of traditional poppy flowers. Students continued to practice their creative skills when they engaged in a beading activity to produce a gift for Mother`s Day.

Wallaby class have started to visit the school garden each week on Tuesdays in 2nd Session. At the beginning of the term, each student planted some sunflower seeds and we are waiting patiently for them to come up. Every week we check to see how they are growing. We practice walking as a group and staying together as we make our way to the garden, stopping first at the Worm Farm. We carefully feed them the scraps staff have donated for us! James is really interested in the worms and likes to pick them up and have a close look! We then move to the garden shed to collect the watering cans which we fill up at the water tank. At the moment the garden has tomatoes, cauliflowers, lettuce, broccoli, strawberries, potatoes and a variety of herbs growing. Everyone loves being out in the sunshine and taking turns at watering. James and Britney love to carry the watering cans and do the watering themselves. Marlene has been introducing the students to the smell of fresh herbs and David, Liam and Nicholas appreciate these new and interesting smells.
